Song  
The city of the future

52 Listen to the song and tick ✓ the pictures you hear.

52 Listen again and correct the mistakes.

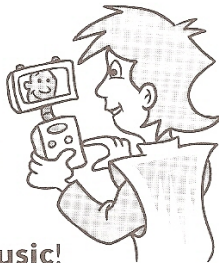

They are living in the **sky**,  
**Two** kilometres high.  
When they look outside  
They can only see the **sun**.  
There are lifts to every **town**.  
So they don't travel far.  
And the **water** is clean  
Because they don't need **buses**.

*It's the city of the future,  
The city of the future.*

They can listen to the news  
On their mobile **TVs**.  
There are no more **shops**.  
They **buy** everything at home.

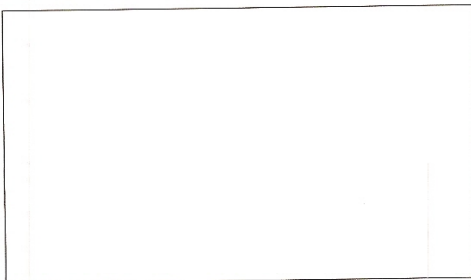

They've got **thousands** of PCs –  
Ten in every **house**.  
When they want to eat  
They download their favourite **music**!
